

## HOUND

Terrestrial predatory mammals, hounds include dogs, foxes, jackals, coyotes, wolves and hyenas. Their senses are incredibly keen, especially smell. Hounds track and chase down prey, attacking with their bites to tear and maim. They are also surging at working in packs, teaming up to surround foes and take advantage of their weaknesses.

- Feisty and persistent, fierce hounds include terriers, foxes and jackals.
- Squat and stocky, brute hounds include bulldogs, pitbulls and bassets.
- Streamlined and versatile, blood hounds include mastiffs, wolfhounds, wolves and hyenas, as well as especially large malamutes, huskies, shepherds, retrievers, labradors, pincers, rottweilers and coyotes.
- Hellhowl hounds are variants with rough, leathery skin, oversized jaws and fangs, and an insatiable bloodlust. Their howls are eerily primeval, filled with cruelty.
